Dist-Palghar,
Tal-Vikramgad 401605

Education

B-Tech(Information Technology)

Vidyalankar Institute of Technology,
Mumbai 400031.

2024-2028

11th & 12th

ST. John Jr. College, Palghar 401404.

2022-2024

Technical Skills

Programming

Data Manipulation

Data Visualization

MACHINE LEARNING

Programming Language

Python

SQL & Java

MEET ALSHI

IT Engineer

CARRER OBJECTIVE

Analytical and results-driven Data Scientist skilled in transforming complex data into actionable insights. Proficient in machine learning, statistical analysis, and data visualization to drive smart decision-making. Passionate about solving real-world problems through data.

Work Experience & Projects

2025

-

2026

IBM Research

DATA SCIENTIST (AI VARIENT)

- Worked as part of Machine Learning and Statistics in Data Science Development.
- Using Scikit-learn, Keras, Tensorflow

2026

-

2027

Google, Mountain View

DATA SCIENTIST (AI VARIENT)

- Worked as part of Data Visualization and Statistics in Data Science Development
- Using Matplotlib, Seaborn.

2024

-

2025

PROJECT 1:

Face Recognition

- Analyzed the faces of the individual person using OpenCV Capture student images & store them in database.
- Train the model using face encodings (e.g., from dlib's face_recognition library).

2025

-

2026

PROJECT 2:

Predicting House Prices using Regression Models

- Analyzed Kaggle's Housing Prices dataset for data trends and feature relationships.
- Applied multiple linear regression, Ridge, and Lasso models to predict house prices.

Certificate

Machine Learning

Certified in Machine
Learning from Internshala

Python

Certified in Python
Programming from Microsoft
